September 15, 2016

3:00-4:30 Eastern Time

Webinar Topic

Effective Strategies and Practices in Providing Orientation for SICC/SAP Members

This webinar will focus on effective strategies for conducting orientations for SICC/SAP members. Most SICC and Panel membership turn over by a third each year. It is important to conduct an annual orientation to make sure new members are familiar with their purpose and functions under IDEA, understand their advisory role, are familiar with the SPP/APR/SSIP, have knowledge of their bylaws and open meeting requirements, and know how to represent their stakeholder group.

The next quarterly webinar (date and time to be announced later) will highlight the related issue of setting SICC/SAP annual priorities using APR and other data to help select annual priorities.

These webinars will include an introduction of the issue by OSEP staff, followed by two State SICC/SAP members presenting on how they conduct member orientation (Webinar 1 on September 15) and setting SICC/SAP annual priorities (Webinar 2, to be announced).

Who Should Attend?

SEA staff, Lead Agency staff, Parent Center staff,
SAP/SICC members, and other stakeholders.
