

Families Are Full Team Members Checklist

This checklist includes steps and actions teams can take to ensure that families are included as full team members and are valued as experts who are considered vital to effective team functioning.

All team members, including family members, are involved and engaged in various ways and to varying degrees over time. Families need to be supported to

increase their level of involvement as comfort and trust build and as the team grows and learns together.

The checklist indicators can be used by team members individually or together to determine whether true collaboration is taking place. The checklist rating scale can be used for a self-evaluation to determine whether the different practices were used during teaming activities.
