ecta Early Childhood Technical Assistance Center

7-Point Rating Scale JEOPARDY!

Instructions

https://ectacenter.org/eco/pages/training_activities.asp

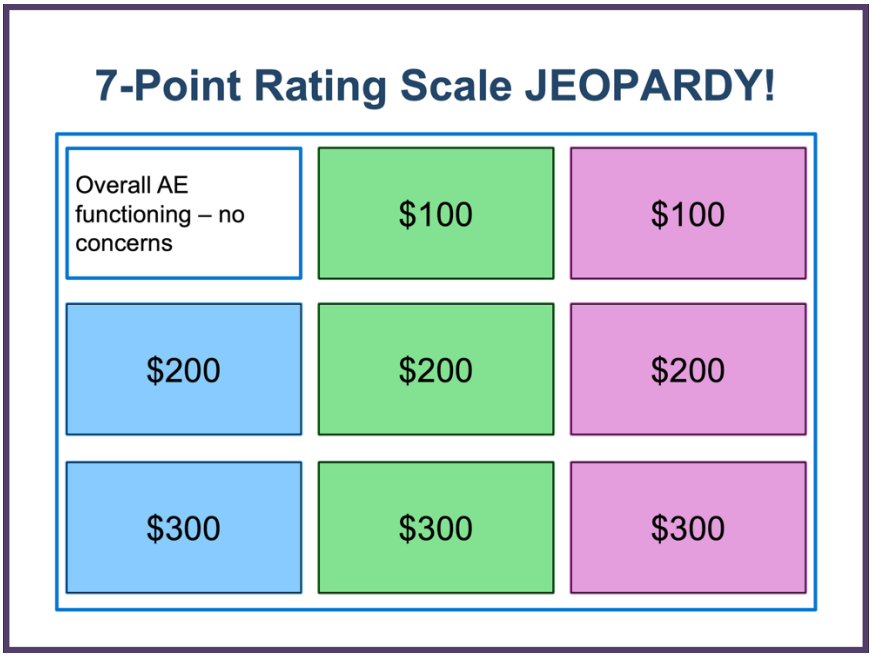

- **Preparation Time:** 20 minutes
- **Activity Time:** 10–15 minutes

Preparation

- Download the **7-Point Rating Scale JEOPARDY! Presentation**.
- Download or print the **7-Point Rating Scale JEOPARDY! Answer Key** for trainers.
- If using the game show activity, provide bells or other answer signals (optional).
- If using the worksheet activity, print the **7-Point Rating Scale JEOPARDY! Worksheet** for each participant.

Load the **7-Point Rating Scale JEOPARDY! Presentation**. While in slideshow mode:

- **Game Show Activity:** Clicking a value reveals its clue. Once revealed in this way, clues can't be recovered unless you restart the slide show.
- **Worksheet Activity:** Advancing the slide or clicking an inert area reveals the first covered clue, starting with Column 1, advancing through clue values from $100 to $300, then on to Columns 2 and 3. Reversing the slide recovers clues advanced by this method.

Game Show Activity

This activity works for individuals or group contestants (up to 20 total participants). If dividing into groups, have each elect a spokesperson to signal and answer with answer with a rating from the COS Definitions: 7-Point Rating Scale Criteria.

Ask participants if they have watched JEOPARDY! before. The activity follows a similar format. Here's the flow of the game:

- A contestant selects a column and clue value.
- Reads the corresponding clue aloud. Once the entire clue is read, contestants can signal their desire to answer in the form of a question, for example, ***"What is 7?"***.
- Acknowledge the first contestant to signal. A correct answer adds the clue's value to the individual (or team)'s score. An incorrect answer subtracts the same amount, and allows another contestant to signal their desire to answer.
- After each correct answer (or if too much time has passed without a correct answer), discuss any incorrect answers before moving on to the next clue.

Worksheet Activity

This option is a better choice for group with more than 20 participants.

- Provide the **7-Point Rating Scale JEOPARDY! Worksheet** to each participant.
- Reveal each clue and allow participants to record their responses. In this version, there's no need to respond in the form of a question.
- Stop for discussion after each clue, or after all clues have been revealed and answered.
