

# Map of Approaches to Family Outcomes Measurement: Part C APR Indicator 4 FFY 2019 (2019-2020)

Some states used additional tools/approaches to measure other family variables. States use survey methods to collect family outcomes data, but the questions and processes vary. The survey tools commonly used by states are the [Family Outcomes Surveys](#) and the [NCSEAM Survey](#). Some states have developed their own survey.

- ECO Family Outcomes Survey - Original
- ECO Family Outcomes Survey - Revised
- State-Developed Survey
- NCSEAM Survey

**ECO Family Outcomes Survey - Original (N=7)**  
American Samoa, Arkansas, District of Columbia, Georgia, Indiana, Wisconsin, U.S. Virgin Islands

**ECO Family Outcomes Survey - Revised (N=19)**
