

# Creating a Mission Statement

<https://ectacenter.org/topics/iep/iep-activity-creating-a-mission.asp>

## A mission statement:

- grounds your vision in practical terms;
- defines clear goals and objectives;
- describes what you will do, for whom, and why; *and*
- inspires people to action.

## What do we want for children and families in our state or community?

## What must we do to achieve those results?

## What can we do today to move toward our goal?

## Who else cares, should be involved, or can support our efforts?
